

Ian Steven Gutiérrez Guerrero

Physics graduate from the University of Costa Rica with a strong analytical background and experience in data analysis and scientific programming. Skilled in problem-solving, working with complex data, and communicating insights effectively. Experience in university-level teaching and science outreach. Seeking to apply analytical and technical skills in a data-driven or problem-solving environment.

EXPERIENCE

University of Costa Rica, San José — *Physics Laboratory Teaching Assistant*

AUGUST 2021 - DECEMBER 2024

- Assisted in undergraduate physics laboratory instruction.
- Supported experimental procedures and guided data analysis.
- Mentored students and evaluated laboratory reports.

University of Costa Rica, San José — *Physics Course Teaching Assistant*

AUGUST 2021 - DECEMBER 2024

- Provided academic support and answered student inquiries.
- Assisted in grading exams and coursework.
- Reinforced theoretical content in undergraduate physics courses.

Centro Educativo Horizontes, Alajuela — *Physics Instructor (Outreach & Educational Workshops)*

MAY 2025 - PRESENT

- Designed and delivered physics workshops for secondary level students across multiple grade levels within the same group.
- Adapted instructional materials and experimental activities to heterogeneous academic backgrounds.
- Emphasized scientific outreach and conceptual understanding.

EDUCATION

Centro Educativo Horizontes, Alajuela — *High School Diploma*

DECEMBER 2020

University of Costa Rica, San José — *Bachelor's Degree in Physics*

MARCH 2021 - DECEMBER 2025

PROJECTS

Cryptographic Resistance of the Simple and Coupled Generalized Logistic Map — *Supervised Research Project*

Data Analysis Portfolio — [Github Repository](#)
